

BOYD ANNOUNCES FEDERAL STIMULUS DOLLARS FOR APALACHICOLA FIRE STATION

WASHINGTON, D.C. – U.S. Congressman Allen Boyd (D-North Florida) today announced that the City of Apalachicola is scheduled to receive \$656,500 in federal stimulus dollars to help combine the city's police and fire stations into a centrally-located area. This funding was made available under the American Recovery and Reinvestment Act, which was recently signed into law with Congressman Boyd's support.

The City of Apalachicola will receive a stimulus grant of \$150,000 and a low-interest loan of \$506,500 to begin the project.

"With these stimulus dollars, the City of Apalachicola will be able to centralize and upgrade its fire and police departments to better serve the community," said Congressman Boyd. "I am extremely pleased we are seeing these stimulus dollars at work here in North Florida for the safety and benefit of the community."
